

**Thomas's Fulham**

## **Ella Lord**

### **Class of 2015**

I arrived at Thomas's Fulham in September 2006 in RFW and left in July 2013, where I then moved on for the final two years at Thomas's Clapham, leaving in July 2015. I went to Wellington College 2015-2020 (sadly I didn't sit my A levels because of COVID). I really loved it there and got involved in a variety of sports and debating. I had an offer to read Engineering at Oxford which I started in October 2020. I am now in my 4th and final year and have just handed in my Master's thesis. I have played Hockey for the University 2nd team throughout my time here. My favourite memory of Thomas's: the sports days every year! The week-long trips such as PGL or to France were always highlights and memories I still remember fondly.

I think Thomas's created a great foundation for me to be confident to try new things and do what I love. I found my love for sports and exercise which has always been a way to make friends and stay fit and healthy as I have grown older.
